WELCOME TO VAMED SWITZERLAND

VAMED Switzerland is more than rehab: we offer patients from anywhere in the world a therapy and care package tailored to their personal needs.

Multidisciplinary team collaboration, and the sharing of knowledge and expertise across our clinics and centers, are at the heart of our family branding strategy. We foster an atmosphere of open and honest dialogue with our patients and their relatives, speaking to them as equals. We guide our patients back into everyday life with personalized therapy.

Core values of our quality promise are integration, specialization, technological leadership, and partnership.

They form the foundation of the “Swissness” of VAMED in Switzerland, which is synonymous with reliability, quality, and innovation.

We devote ourselves to that every day – for the well-being of our patients.

Thank you for placing your trust in us.

Vincenza Trivigno
CEO, VAMED Switzerland

Roman Weiss
Head of International Business

CLINICS & CENTERS

VAMED – YOUR REHABILITATION PROVIDER IN SWITZERLAND

During your stay, you'll benefit from the outstanding medical expertise provided at our four rehabilitation clinics and our Zürich rehabilitation center.

We make use of interdisciplinary and cross-clinic collaboration based on regular dialogue between our locations, each of which specializes in one or more fields. With many years of expertise and a wealth of diverse knowledge, VAMED is a leading rehabilitation provider in Switzerland.

Our clinics offer all patients the atmosphere necessary for successful rehabilitation. Light-filled rooms overlooking greenery, culinary delights in our restaurants, and inviting indoor and outdoor spaces all help to enhance your well-being.

VAMED. More than rehab
Integration, technological leadership,
specialization and partnership.

REHAKLINIK ZIHLSCHLACHT

SPECIALIZING IN NEUROREHABILITATION

The Zihlschlacht rehabilitation clinic is one of the world's leading clinics for neurorehabilitation. It is dedicated to the specialized rehabilitation of people with brain and nerve injuries following a stroke, multiple sclerosis, Parkinson's disease, or a traumatic brain injury. This rehabilitation is done using state-of-the-art, robot-assisted therapy equipment. The robotics center at the Zihlschlacht rehabilitation clinic is one of the largest in the world and enables very efficient physical training with high repetition.

Following acute care in a hospital, neurological early rehabilitation in our Bodan Ward gives our most severely affected patients the opportunity to wean from ventilation at an early stage so they can train their skills for everyday living.

REHAKLINIK TSCHUGG

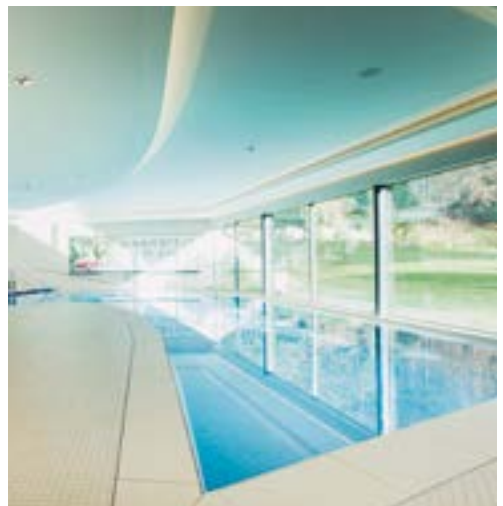

SPECIALIZING IN NEUROREHABILITATION, PARKINSON'S DISEASE, AND EPILEPTOLOGY

This clinic in Bern's Lake District specializes in Parkinson's rehabilitation and neurorehabilitation. Tschugg can be relied on for comprehensive patient care delivered with humanity and respect.

With their joint focus on neurorehabilitation, the Zihlschlacht and Tschugg clinics have extensive knowledge, broad experience, and specialized teams at their disposal, for the benefit of patients in both facilities.

REHAKLINIK DUSSNANG

SPECIALIZING IN MUSCULOSKELETAL AND GERIATRIC REHABILITATION

After a bone fracture or the implantation of an artificial hip or shoulder joint, the aim is always to regain the original functioning of the musculoskeletal system as completely as possible. Our musculoskeletal rehabilitation helps patients to train the correct movements and rebuild muscles.

Our geriatric rehabilitation assists older people in returning to an independent life after an accident or surgery.

REHAKLINIK SEEWIS

SPECIALIZING IN CARDIOLOGICAL, PSYCHIATRIC-PSYCHOSOMATIC, AND INTERNAL ONCOLOGICAL REHABILITATION

The medical team here is made up of renowned specialists who together strive to maintain and/or restore the best possible physical and mental health of our patients.

Using a multimodal therapy approach, we guide you back to your normal daily life in as short a time as possible – whether you are recovering from cardiovascular or internal oncological illnesses, or dealing with limitations caused by psychological stress and psychosomatic symptoms.

ZÜRICH SEEFELD REHABILITATION CENTER

THE INNOVATIVE CENTER FOR OUTPATIENT REHABILITATION

At this site in the Zürich's Seefeld quarter, VAMED Switzerland runs an innovative outpatient rehabilitation center.

The center's work is based on the latest scientific findings and utilizes innovative technologies and computer-assisted devices for rehabilitation.

Through collaboration with other partners in the healthcare sector, we can offer holistic prevention and rehabilitation packages at our Zürich rehabilitation center.

WHAT WE OFFER

YOUR STAY WITH US

Thank you for choosing a stay in our VAMED rehabilitation clinics. Our International Office is on hand to provide assistance. We are happy to guide you smoothly through the process, from the planning stage through to your stay with us.

International Office:
Tel. +41 71 424 33 66
Email: international@vamed.ch

1

INITIAL CONTACT

Our International Office will respond to your inquiry without delay, and support you in all administrative matters.

2

OUR PERSONALIZED OFFERING

So we can provide you with a tailored offering, we require the following medical documents from you:

- ▶ Medical report
- ▶ List of current medications
- ▶ Your current insurance status

3

OUR ADDITIONAL SERVICES

We will pick you up by private limousine or ambulance from Zürich Airport – with interpreter service if required.

This also applies to all therapies and doctor's visits.

4

YOUR STAY

So you can focus entirely on your recovery, we will continue to help you with all administrative matters throughout your stay. We take care of any pending applications and insurance reimbursements, and assist with any issues you may have, to ensure a carefree stay with us.

MEDICAL SERVICES

OUR EXPERTISE FOR YOUR JOURNEY BACK TO A MORE INDEPENDENT LIFE

Dr. Daniel Zutter has been Chief Physician at the Zihlschlacht rehabilitation clinic since 2008 and the Medical Director/Chief Medical Officer (CMO) of VAMED Switzerland since 2020. His core competencies lie in neuro-rehabilitation and Parkinson's, MS, and stroke rehabilitation, as well as the treatment of neurodegenerative diseases.

More information:
www.rehaklinik-zihlschlacht.ch/en/your-stay-with-us/international-patients-de

Dr. Stefan Schuko is a neurologist who has been head of the International Ward of the Zihlschlacht rehabilitation clinic since 2016. His core competencies lie in neurorehabilitation, functional MRI for traumatic brain injuries, and the pharmacological stimulation of comatose patients.

The International Office handles all your questions regarding organization, financing, travel, and your stay in the VAMED Switzerland rehabilitation clinics, and is happy to personally advise you.

We look forward to hearing from you.

RESEARCH & INNOVATION

OUR RESEARCH – YOUR PROGRESS.

In all its clinics, the VAMED Switzerland Group is committed to advancing scientific knowledge, which forms the foundation of evidence-based medicine.

This relies on clinical studies, which can determine the benefits of a drug, or the effectiveness of a type of therapy. In this way, we can continuously evaluate the quality of our therapy, improve it, and ultimately justify it to health insurers. You too can benefit from our knowledge!

We use state-of-the-art technologies with robotic and sensor-based training devices to create optimum conditions for physical training. Technology-assisted therapies, especially robot-supported movement therapy, have become standard in neurorehabilitation in recent years.

These robot-assisted therapy devices enable patients to undertake specific therapies, such as gait therapy, much earlier – and with the benefit of high repetition, which promotes motor learning and neuronal reorganization. Studies have shown that using these devices as soon as possible after a stroke or other neurological conditions significantly improves patient recovery.

PARTNERSHIPS

We cultivate long-term relationships with partners from the the worlds of healthcare and science in order to collaboratively guide our patients towards an independent life.

QUALITY IS PARAMOUNT FOR US

All our clinics and centers provide rehabilitation at the highest level. So we can maintain this standard, we continuously analyze and improve our processes. In addition, our quality management system is regularly audited and assessed by external experts.

GREAT RECOGNITION FOR ROBOTICS IN NEUROREHABILITATION

The DIH Center of Excellence programme recognises strategic partners with expertise in rehabilitation robotics. As part of the VAMED Switzerland Group, the Rehabilitation Clinic Zihlschlacht has been dedicated to the neurorehabilitation of stroke patients and the treatment of neurological diseases for over 35 years, making it the first clinic in Switzerland to be recognised as a DIH Center of Excellence, thus underlining the clinic's commitment to innovation and state-of-the-art technology in neurological care.

WHAT OUR PATIENTS SAY

AFTER A LONG PERIOD OF MEDICAL ISSUES, I HAD CONSIDERABLE DIFFICULTY WALKING. THE ZIHLSCHLACHT REHABILITATION CLINIC WAS RECOMMENDED TO ME BY FRIENDS. ALL MY EXPECTATIONS WERE MET OR EXCEEDED THERE. "

PETER K., GERMANY

OUR SON, WHO HAD AN ACCIDENT IN OCTOBER 2011 AND IS NOW 24 YEARS OLD, RECEIVED TREATMENT IN THE ZIHLSCHLACHT REHAB CLINIC MANY TIMES, OVER A LONG PERIOD. HE ALWAYS FELT HE WAS WELCOME THERE AND WAS HANDLED WITH A LOT OF CARE AND EMPATHY. "

DARIO T., AUSTRIA

I HAVE GREATLY APPRECIATED ALL
THE PEOPLE I'VE MET IN THIS CLINIC,
FROM THE DOCTORS AND THE
MEDICAL STAFF TO THE TRAINERS,
AND I THINK THEY BROUGHT
ME BACK TO LIFE. ”

VAMED SWITZERLAND

MORE THAN REHAB

OUR QUALITY PROMISE

We bring our patients back to the things they love. Thanks to our professional commitment, they receive first-class treatment and personal care.

INTEGRATION

Multidisciplinary team collaboration lies at the heart of our work – and also open and honest dialogue. We speak to our patients and their relatives as equals, and guide our patients back into everyday life with personalized therapy.

TECHNOLOGICAL LEADERSHIP

With the latest technologies and a high capacity for innovation, we ensure that our patients receive the best possible therapy. Elements of play enrich our personalized programs.

PARTNERSHIP

We guide our patients respectfully and professionally on their journey back to everyday life. As a dependable partner, we are always open to suggestions and improvements that benefit our patients.

SPECIALIZATION

Our experienced, specialized teams are passionately and firmly committed to evidence-based working practices. We continuously assess the quality of our services and keep the public fully informed.

These four values form the foundation of the “Swissness” of VAMED in Switzerland, which is synonymous with reliability, quality, and innovation.
